ORACLE®
_____

Certified Associate
_____

Java SE 8 Programmer

OBJECTIVE

Bilingual (English/Spanish) and dedicated programmer seeking to contribute as game developer. Experienced and motivated, with proven delivery/skills in many different languages and platforms, including: Java, HTML, CSS, and Git.

EXPERIENCE

PlanetBravo Technology Education**,** Los Angeles, CA — *Curriculum Supervisor (Seasonal Position)*

JULY 2014 - PRESENT

PlanetBravo is a Summer camp that teaches kids how to program, make video games, build robots, edit videos, and much more. My duties are to create and expand the curriculum that is taught by the camp counselors to a group of students. Some of the classes I wrote are: Minecraft Modding, Java 2-week intensive, Javascript, Python, and Scratch.

SkillsUSA South Pasadena Chapter**,** Los Angeles, CA — *Chapter President*

JUNE 2016 - PRESENT

My duties as chapter president include: the effective functioning of the club, leadership of the other officers and members, representative of the club to the student body and faculty, to delegate work efficiently and effectively, and to supervise the chapter operations.

Bloc**,** South Pasadena, CA – Web Programmer

August 2017 - PRESENT

Bloc is a virtual company created at South Pasadena High School to simulate a real-World business environment. I was in charge of the Bloc company website, managing online sales, and updating the website's contents.
